Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-7, 10 & 11 are rejected under 35 U.S.C. 102(e) as being anticipated by Bahler US Patent 6,749,637 B1.

Bahler discloses an implant comprising a humeral component (11), a concave surface (35), an intermediate component ((41 & 65), first (43) and second (75) convex surfaces, a concave glenoid (85), a plate (33), a part (13), a linking stem (17), a washer (63) and a dish (73).

Regarding the wherein clause, see col. 2, lines 14-24; col. 3, lines 29-32; col. 4, lines 22-25.

Regarding claim 7, see col. 8, lines 20-23.

Allowable Subject Matter

Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed January 06, 2005 have been fully considered but they are not persuasive.

The applicant's representative discloses that the convex/concave surfaces of the Bahler reference are not articulation surfaces allowing sliding movement relative to one another.

The Examiner disagrees with the Applicant's representative point of view. Bahler discloses a convex surface (43) capable of sliding movement or pivotally movement relative to the concave surface of element (33). Col. 9, lines 10-21, discloses that the convex surface 43 is pivotable about the second axis (37) in the rotating piece (33). Therefore, if the surface 43 pivots with respect to the axis of element 33, then, the element 41 is pivotable with respect to element 33. Finally, element 41 has an oblong slot that makes the structure 41 slide relative to element 33. For the above reasons, the Examiner believes that the previous rejection is proper.

Conclusion
